Split-core

JS series of split-core current transformer offers 5A at secondary from sensed primary current for metering application. It can be used for power meter, distribution system, control panels, switchgear and other equipment. It is designed to install to live power line without disconnection as split-core compact type. Also, over-voltage protection circuit is included to offer safe, fast and cost effective installation.

Applications

- Power meter
- Switchgear
- · Distibuted measurement systems
- General Sets
- Control panels

Benefits

- Small-size, light-weight
- Simple Installation
- Over-Voltage protection circuit is installed.

Features

- PC spring, output-terminal, secure locking hinge, one-touch structure make easy to install to the existent equipments such as a power distribution boards.
- Isolated plastic case recognized according to UL94-V0
- UL / EN 61010 1 certified

Notice

- Core contact surface is waterproofed, however if it gets rusty, you could reuse after removing rusts with spraying WD-40 or CRC5-56 on the rusted side
- · Customizing output lead wire

Specification

| Accuracy | Class 0.5 / 1.0 / 3.0 |
|-----------------------------|--------------------------------------|
| Output Terminals | 2 X M3-Screw, with Terminals cover |
| System Voltage | 720V(0.72kV) |
| Overload withstand | 1.2 times rated current continuously |
| Compliant with | IEC/EN60044-1 & IEC61010-1 |
| Operating Temperature Range | -20°C to 55°C |
| Relative Humidity | 0-85% non-condensing |
| Test Voltage | 3kV for 1minute |
| Frequency Range | 50/60Hz |
| Protection Level | Bipolar 6.5Vp |
| Installation Category | CAT II or CAT III 600VAC |
