## SIEMENS

## Data sheet

## 6XV1875-5LH10

product type designation product description

## antenna connection cable N-Connect/SMA plug/plug

Connecting cable for SIMATIC NET antennas, preassembled

N-Connect/SMA male/ male flexible connection cable pre-assembled, Length 1 m, flexible connecting cable SCALANCE M antenna.

suitability for use	Flexible connecting cable for connecting an antenna to SCALANCE M
wire length	1 m
electrical data	
number of electrical connections	2
type of electrical connection	N-Connect/SMA male/male
transmission frequency	0 6000 MHz
attenuation factor per length	
• at 2.4 GHz / typical	0.53 dB/m
• at 5.2 GHz / typical	0.83 dB/m
• at 5.85 GHz / typical	0.89 dB/m
return loss	
• minimum	23 dB
impedance	
rated value	50 Ω
capacity per length / at 1 kHz	82 pF/m
relative speed	82 %
mechanical data	
design of the shield	Braided shield made of tin-plated copper wires
outer diameter	
<ul> <li>of inner conductor</li> </ul>	1.4 mm
of dielectric	3.8 mm
of cable sheath	6.3 mm
symmetrical tolerance of the outer diameter / of cable sheath	0.2 mm
thickness / of cable sheath	1.76 mm
material	
<ul> <li>of inner conductor</li> </ul>	Cu
of dielectric	polyethylene foam
<ul> <li>of cable sheath</li> </ul>	FRNC
color	
<ul> <li>of cable sheath</li> </ul>	pastel turquoise
bending radius	
<ul> <li>with single bend / minimum permissible</li> </ul>	32 mm
<ul> <li>with multiple bends / minimum permissible</li> </ul>	45 mm
tensile load / maximum	80 N
weight per length	75 kg/km
ambient conditions	
ambient temperature	
<ul> <li>during operation</li> </ul>	-40 +80 °C

0 +80 °C 0 +80 °C 5 +80 °C anditional resistance sistant hen plugged in

us.nsupport.industry.sicinchs.com
emens provides products and solutions with industrial cybersecurity functions at support the secure operation of plants, systems, machines and networks. order to protect plants, systems, machines and networks against cyber reats, it is necessary to implement – and continuously maintain – a holistic, ate-of-the-art industrial cybersecurity concept. Siemens' products and olutions constitute one element of such a concept. Customers are responsible r preventing unauthorized access to their plants, systems, machines and etworks. Such systems, machines and components should only be connected an enterprise network or the internet if and to the extent such a connection is accessary and only when appropriate security measures (e.g. firewalls and/or etwork segmentation) are in place. For additional information on industrial bersecurity measures that may be implemented, please visit ww.siemens.com/cybersecurity-industry. Siemens' products and solutions idergo continuous development to make them more secure. Siemens strongly commends that product updates are applied as soon as they are available ind that the latest product versions are used. Use of product versions that are o longer supported, and failure to apply the latest updates may increase istomer's exposure to cyber threats. To stay informed about product updates, ubscribe to the Siemens Industrial Cybersecurity RSS Feed under tps://www.siemens.com/cert. (V4.7)
