

### product type designation

**RCoax Antenna ANT792-4DN**

ANT792-4DN IWLAN antenna for RCoax systems, 4 dBi Helix antenna, circular polarizing clockwise; incl. N-female plug IP65 (-40-+70 °C), 2.4 GHz,

### radio frequencies

type of wireless network / is supported	WLAN
operating frequency	
<ul style="list-style-type: none"> <li>for WLAN in 2.4 GHz frequency band</li> </ul>	2.4 ... 2.4835 GHz

### electrical data

antenna gain compared to spherical radiator	maximum antenna gain
<ul style="list-style-type: none"> <li>with linear radiation</li> <li>of the WLAN antenna / in the 2.4 GHz frequency band</li> </ul>	4 dB
impedance	50 Ω
polarization	Right hand circular
radiation characteristic	Sector antenna
standing wave ratio (VSWR) / maximum	1.8
radiating angle of the antenna	
<ul style="list-style-type: none"> <li>in the 2.4 GHz frequency band / horizontal</li> </ul>	90°
number of electrical connections / of the antenna	1
type of electrical connection / of the antenna	N-Connector
design of plug-in connection	female
angle of inclination / downward / maximum	0°
front-to-back ratio	2.5 dB

### mechanical data

material	
<ul style="list-style-type: none"> <li>of outer shell</li> </ul>	Polycarbonate

### ambient conditions

ambient temperature	
<ul style="list-style-type: none"> <li>during operation</li> <li>during storage</li> <li>during transport</li> </ul>	-40 ... +70 °C
protection class IP	IP65

### design, dimensions and weights

height	78.7 mm
diameter	30 mm
net weight	114 g

### product features, product functions, product components / general

product feature / silicon-free	Yes
--------------------------------	-----

### standards, specifications, approvals

certificate of suitability	
<ul style="list-style-type: none"> <li>RoHS conformity</li> </ul>	Yes
product conformity	UL 94-V1
wireless approval	Current national approvals can be found on the Internet under

	www.siemens.com/funkzulassungen
reference code / according to IEC 81346-2:2019	TFB
<b>further information / internet links</b>

<b>security information</b>	
security information	<p>Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit <a href="http://www.siemens.com/cybersecurity-industry">www.siemens.com/cybersecurity-industry</a>. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <a href="https://www.siemens.com/cert">https://www.siemens.com/cert</a>. (V4.7)</p>
