SIEMENS

Data sheet

6NH9860-1AA00

product type designation

Antenna ANT794-4MR

ANT794-4MR mobile wireless antenna for 2G/3G/4G EU, GSM/UMTS/ LTE EU networks, rod antenna; omnidirectional; weatherproof for indoors and outdoors; 5 m connection cable permanently connected to the antenna; SMA connector; national approval and data sheet to be observed; scope of supply: 1 antenna, 1 mounting bracket, screws, screw anchors.

50 C		
suitability for operation	for indoor and outdoor applications	
radio frequencies		
type of wireless network / is supported	LTE, UMTS, GSM	
operating frequency / 1	790 960 MHz	
operating frequency / 2	1710 2170 MHz	
operating frequency / 3	2400 2690 MHz	
electrical data		
antenna gain	0 dB	
impedance	50 Ω	
polarization	Linear Vertical	
radiation characteristic	omnidirectional	
standing wave ratio (VSWR) / maximum	2	
number of electrical connections / of the antenna	1	
type of electrical connection / of the antenna	SMA Connector	
design of plug-in connection	male	
mechanical data		
material		
of outer shell	Hard PVC, UV-resistant	
of cable sheath	PVC	
color / of cable sheath	Black	
bending radius		
 with single bend / minimum permissible 	42 mm	
 with multiple bends / minimum permissible 	83 mm	
ambient conditions		
ambient temperature		
during operation	-40 +85 °C	
protection class IP	IP54	
product feature / resistant to UV radiation	Yes	
design, dimensions and weights		
width	25 mm	
height	193 mm	
depth	25 mm	
diameter	25 mm	
net weight	310 g	
fastening method	mounting brackets and mounting parts, vertical mounting	
fastening method		
mast mounting	Yes	
flat roof mounting	No	
wall mounting	Yes	

roof mounting	No
directly on the device	No
wire length / of antenna cable	5 m
standards, specifications, approvals	
certificate of suitability	
RoHS conformity	Yes
reference code / according to IEC 81346-2:2019	TFB

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' product versions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
